YOU CAN HELP OUR FARMERS IN NEED!

Many Australian Farmers are suffering under enormous pressures. Imported foods, No ability to export their beef, drought and bushfires and for those in North Queensland, this has been compounded by no wet season.

It is estimated that up to One Million cattle in Qld alone may die or have to be destroyed. Many farming families were just getting over the drought of the early 2000's and now are being hit again.

The Aussie Helpers Charity provides assistance to these farmers and their communities who all suffer when farming families suffer.

Assistance comes in many forms including fodder, groceries, volunteers to rebuild properties and people to help deal with depression and isolation.

The Buy a Bale Campaign is asking all Australians to donate to the purchase of a bale of hay, a litre of diesel, the purchase of a Gift Card for groceries, or the volunteering of time to help.
